

JEEVAN V C

Data Analyst

+91 9345699075 | jeevankrishna48@gmail.com | Chennai, Tamil Nadu | [linkedin.com/in/jeevan-v-c](https://www.linkedin.com/in/jeevan-v-c) | github.com/Jeevan1330/Data-Analyst-Portfolio

PROFILE SUMMARY

Aspiring Data Analyst with hands-on experience in SQL, Excel, Power BI, Tableau, and Python for data cleaning, exploratory data analysis (EDA), dashboard development, and predictive modeling. Skilled in transforming raw datasets into actionable business insights through interactive dashboards, data visualization, and machine learning models. Completed a course-integrated Data Analyst internship applying end-to-end data analytics workflows on real-world datasets. Seeking a Data Analyst Internship or Junior Data Analyst role to apply analytical, visualization, and problem-solving skills in a data-driven environment.

EDUCATION

Dwaraka Doss Goverdhan Doss Vaishnav College

B.Sc., Data Science | Chennai, Tamil Nadu | CGPA: 7.5

07/2024 – Present

SKILLS

Languages & Query Tools: SQL, Python

BI & Data Visualization: Power BI, Tableau, Excel (Pivot Tables, Charts, Slicers), Dashboard Development, Business Intelligence (BI)

Python for Data Analysis: NumPy, Pandas, Matplotlib, Seaborn

Machine Learning: Supervised Learning, Unsupervised Learning, Predictive Analytics, GridSearchCV, Decision Tree, Random Forest, XGBoost

Core Concepts: Data Analysis, Data Cleaning, Data Visualization, Exploratory Data Analysis (EDA), Business Insights Generation

PROFESSIONAL EXPERIENCE

Data Analyst Intern — Yardgreen (Course-Integrated Internship through IT Vedant)

2025 – Present

- Developed an interactive Traffic Accident Analysis Dashboard using Power BI, implementing data cleaning, data modeling, DAX, and advanced visualizations.
- Performed Exploratory Data Analysis (EDA) to identify accident trends, weather impact, and generate actionable business insights.
- Built time-series visualizations with moving averages, slicers, drill-down features, and optimized dashboard performance using Power BI Performance Analyzer.
- Published the dashboard to Power BI Service and prepared professional reports and presentations to communicate analytical findings.

PROJECTS

Loan Approval Analysis Dashboard | Excel

- Built an interactive Excel dashboard analyzing 614 loan records to uncover trends in loan approval rates.
- Leveraged Pivot Tables, Charts, and dynamic Slicers to design KPI-driven visualizations supporting faster business decisions.

Online Movie Ticket Booking Analysis | SQL

- Queried and analyzed transactional data using SQL to uncover user behavior, movie performance, and revenue patterns.
- Delivered actionable insights on city-wise revenue, top-performing movies, peak showtimes, and theater performance.

Dmart Sales Analysis | Power BI

- Developed an interactive Power BI dashboard to track sales, profit, and category-wise performance.
- Created KPIs and dynamic visualizations to identify top-selling products and regional sales trends.

Customer Churn Prediction | Machine Learning

- Built a customer churn prediction model using Python, applying data preprocessing and feature engineering on telecom customer data.
- Compared Decision Tree, Random Forest, and XGBoost using GridSearchCV, selecting XGBoost for the highest accuracy and ROC-AUC score in predictive analytics.

CERTIFICATIONS

Data Analyst and Data Science with Generative AI

2025 – 2026

- Gained practical experience in Excel, SQL, Python, Power BI, and Tableau for data analysis and visualization.
- Built foundational expertise in NumPy, Pandas, machine learning, and Generative AI concepts.
